

# PERSONAL CARE

## BARRIER CREAM

*Foul weather gear for your skin*

### DESCRIPTION

When you keep your skin clean, you lose natural oils, lowering the skin's natural ability to protect itself. If you use a heavy lotion, you suffocate your skin. But you don't want to leave your skin exposed to allergens, pollutants, and common environmental irritants.

The solution is Neways Barrier Cream. This skin-protection lotion features an abundant blend of rich ingredients to support a water-resistant barrier between your skin and the harmful ravages of the environment, such as heat, cold, and wind.

Barrier Cream helps support your skin with innovative, protective ingredients that actually let your skin respire naturally. One application of Barrier Cream gives long-lasting protection without a greasy feel. Good for most skin types, Barrier Cream is effective at holding in skin's moisture and preventing skin dehydration.

### BENEFITS

- Protects skin from the environment
- Allows skin to respire
- Prevents excessive moisture loss
- Promotes skin health and radiance

### RECOMMENDED USE

To protect normal or rough skin, rub in Barrier Cream until absorbed. Two applications may be needed for maximum protection.

## BARRIER CREAM

(continued)

### KEY INGREDIENTS

- *Sweet almond oil*—Mimics natural skin oils. Excellent emollient and skin conditioner. Supports skin's natural moisturizing factors. Softens and improves the look of dry, chapped skin.
- *Allantoin*—Calms unsettled skin. Effectively soothes and conditions skin.

**DIRECTIONS:** To protect normal or rough skin, rub in until absorbed. Two applications may be needed for maximum protection.

**INGREDIENTS:** Water (aqua), prunus amygdalus dulcis (sweet almond) oil, methylpropanediol, hydrogenated polydecene, VP/hexadecene copolymer, sodium behenoyl lactylate, polyperfluoromethylisopropyl ether, phenoxyethanol, caprylyl glycol, allantoin, carbomer, cetyl alcohol, chlorphenesin, cetyl hydroxyethylcellulose, disodium EDTA.

**MODE D'EMPLOI:** Pour protéger la peau normale ou rugueuse, faites pénétrer jusqu'à absorption complète. Une deuxième application assurera une protection maximale.

**INGRÉDIENTS:** Eau, huile d'amande douce (prunus amygdalus dulcis), méthylpropanediol, alcool cétylique, polydecene hydrogéné, VP/hexadecene copolymer, lactylate bénénoyl de sodium, éther de polyperfluorométhylisopropyl, phénoxyéthanol, glycol de caprylyle, allantoin, carbopal, alcool cétylique, chlorphénésine, cetyl hydroxyéthylcellulose, EDTA disodique.
