

HEALTH & WELLNESS

CARDIOL

Keep your heart young

DESCRIPTION

It's true: cardiovascular health is a leading health concern in the United States, for both men and women. To take care of your heart, you need to do more than just stay away from dangers like smoking and junk food. You need to make sure your heart is getting the right nutrients.

Neways' Cardiol can help. This remarkable supplement is a great source of coenzyme Q10 (coQ10), which is produced by the human body and is necessary for the basic functioning of cells. CoQ10 is known to be a strong antioxidant, but coQ10 levels are reported to decrease with age.*

CoQ10 is most famous for its nutritional benefit to the cardiovascular system. It is highly concentrated in heart-muscle cells, where energy requirements are high. Cardiol is a great way to give your body the coQ10 it needs. These softgels provide needed antioxidants for your cells. Cardiol is an important dietary supplement to a heart-healthy diet.*

BENEFITS

- Supports cardiovascular health*
- Supports antioxidant capacity*
- Supports circulatory system health*

RECOMMENDED USE

Take one Cardiol softgel in the morning and one in the evening on an empty stomach.

KEY INGREDIENTS

CoQ10, natural vitamin E
