

PERSONAL CARE

ELIMINATOR® MOUTHWASH

Clean mouth, fresh breath

DESCRIPTION

Many adults face some type of oral health issue, including bad breath. These problems can be significant and should not be ignored, because oral health reflects and influences general health.

Eliminator® Mouthwash offers leading-edge technology with effective, proven ingredients that maintain oral health and help reduce bad breath. This alcohol-free mouth rinse oxidizes and dissolves the food film that accumulates on teeth.

Swish Eliminator® around your mouth for 30 seconds to make a powerful difference in the way your mouth feels, tastes, and smells. Eliminator® gently rinses off food debris and does not irritate gums.

BENEFITS

- Eliminates bad breath, leaving breath mint fresh
- Promotes healthy gums and teeth
- Alcohol free

KEY INGREDIENTS

- *Stabilized chlorine dioxide*—This oxidizing chemical helps promote significant breath odor reduction.
- *Peppermint flavoring*

PERSONAL CARE

ELIMINATOR® MOUTHWASH

(continued)

Helps promote healthy teeth and a healthy mouth when used with an approved dental hygiene program.

DIRECTIONS: Use 1 capful for fresh breath and clean, film-free teeth and gums. Thoroughly rinse mouth for at least 30 seconds several times a day. For best results, do not eat or drink for at least 10 minutes after rinsing. In water picks or dental irrigation devices use at least 2 capfuls.

INGREDIENTS: Purified water (Aqua), sodium chlorite (stabilized chlorine dioxide), flavor.

Made, used and sold pursuant to license under U.S. Patent number 4,689,215 and related U.S. and foreign patents.
