

PERSONAL CARE

LIGHTNING

Purely beautiful skin

DESCRIPTION

You've had a suntan, and you've had the occasional burn. Tanning is your skin's natural protective response to sun exposure. But over time, pigment production in the skin can develop into photo-aging. Sun exposure without protection affects the melanocytes in your skin, and melanin is overproduced. A few decades later, you're left with age spots, liver spots, or freckles—also known as hyper-pigmentation.

Neways Lightning is a unique, site-specific formulation that helps diminish the appearance of freckles, skin discolorations, and age spots caused by hyper-pigmentation. A proprietary blend of mulberry, sugar cane, green tea, and other fruit extracts, Lightning softens skin discolorations and helps exfoliate dead skin cells to reveal a naturally smooth and radiant complexion.

Lightning is easily applied and absorbed. Fragrance-free and bleach-free, Lightning is appropriate for most skin types.

BENEFITS

- Gently softens freckles, age spots, and liver spots to even out skin tone
- Supports skin's ability to efficiently exfoliate dead skin cells
- Enhances a younger, more vibrant complexion

RECOMMENDED USE

Apply one drop of Lightning to each discolored spot, and massage in until absorbed. Use once or twice per day on clean, dry skin.
