

NEWBRITE™ ALL-PURPOSE CLEANER

Serious scrubbing with a softer side

DESCRIPTION

Your life just got simpler. At last, there's a way to remove grease and grime from almost any indoor or outdoor washable surface—with one cleanser.

NewBrite™ All-Purpose Cleaner is so powerful and versatile that it's all you need for grease and grime. This unique formula features a combination of plant-based surfactants that remove all types of soils, oils, and stains from hard surfaces, fabrics, and carpet.

Formulated with natural degreasers and other cleaning agents, All-Purpose Cleaner cuts through greasy buildup, while soil-chelating agents prevent dirt from redepositing on clean surfaces. It wipes clean without hazy buildup or streaks.

While this extra-strength cleaner is stronger than most products you can find in stores, it has a gentle side. All-Purpose Cleaner contains no added fragrance, phosphates, sodium lauryl sulfate, D-limonene, bleach, ammonia, or ingredients that form formaldehyde.

All-Purpose Cleaner is made with responsible ingredients that don't diminish its potent cleaning ability. In addition, this formula contains water softeners to effectively reduce hard-water stains and boost cleaning power.

BENEFITS

- Lifts grease and grime
- Leaves clean surfaces brighter
- Prevents dirt from redepositing

HOUSEHOLD

RECOMMENDED USE

Spray soiled area, then wipe clean with a paper towel or lint-free cloth. For heavily soiled areas, allow several minutes for product to penetrate, then wipe clean. Repeat if necessary. Test a small area before use on painted surfaces. See label for complete directions.

KEY INGREDIENTS

- **Sodium methyl 2-sulfolaurate, disodium 2-sulfolaurate, decyl glucoside/lauryl glucoside, disodium cocoamphodipropionate**—These are chemical names given to very simple fatty-acid-derived surfactants produced from vegetable and grain oils. Freely water-dispersible and functional at removing dirt and oils, these ingredients fight the toughest soils and clean and rinse well in cold water.
- **Sodium metasilicate**—Helps maintain alkalinity, soften water, and keep soil and debris in suspension so they will rinse away. It can bind to heavy metals and remove them from surfaces and can protect stainless-steel surfaces from chemical disruption due to pH and other adverse events.
- **Lauryl alcohol**—A mild soaping ingredient effective at lifting dirt from surfaces.
- **Butoxydiglycol**—A mild, water-soluble cleansing solvent that helps dissolve oily soils.

Directions: Spray soiled area, then wipe clean with a paper towel or lint-free cloth. For heavily soiled areas, allow several minutes for product to penetrate, then wipe clean. Repeat if necessary. Test a small area before use on painted surfaces.

Warning: EYE IRRITANT. Avoid contact with eyes. First Aid: If in eyes, immediately rinse eyes with plenty of water. Remove any contact lenses and continue rinsing for at least 15 minutes. If irritation persists, get medical attention. KEEP OUT OF REACH OF CHILDREN.

Ingredients: less than 5%: ionic, anionic and amphoteric surfactants.

Anwendung: Auf verschmutzte Flächen sprühen und mit einem Tuch oder Schwamm sauber wischen. Bei stark verschmutzten Flächen All-Purpose Cleaner einige Minuten einwirken lassen und sauber wischen. Bei Bedarf wiederholen. Bei farbigen Flächen zunächst an einer

unauffälligen Stelle ausprobieren.

Hinweis: REIZT DIE AUGEN. Augenkontakt vermeiden. Bei Augenkontakt Augen sofort mit viel Wasser spülen. Eventuell vorhandene Kontaktlinsen entfernen und Augen weitere 15 Minuten mit Wasser spülen. Bei anhaltenden Beschwerden Arzt konsultieren. VON KINDERN FERNHALTEN.

Inhaltsstoffe: weniger als 5%: anionische, nichtionische und amphotere Tenside.
