SNAP BACK

Smooth, firm, and beautiful skin

DESCRIPTION

Don't wait for time to take care of your unsightly stretch marks. Smooth them over with Neways Snap Back.

Pregnancy, growth spurts, and rapid weight fluctuations can cause tiny tears in the supportive elastic tissue of the skin, leaving depressed and sometimes discolored streaks. These streaks fade with time but may never totally disappear.

Neways Snap Back can help you smooth the appearance of stretch marks. This unique collagen-boosting and elastin-energizing formula is enriched with *Gingko biloba*, palm oil, and arnica to assist the skin's own natural renewal processes. Snap Back helps diminish the appearance of streaks and gives skin a firmer look.

In addition, Snap Back is effective for minimizing the appearance of under-eye and jaw-line sagging, fine lines, and wrinkles.

BENEFITS

- Improves the appearance of unsightly stretch marks
- Increases skin smoothness
- Supports skin elasticity

RECOMMENDED USE

Thoroughly rub liberal amount of Snap Back into stretch marks until completely absorbed. Use twice per day.
