

PERSONAL CARE

RESURRECTION BIO-MIST™

Quench your skin's thirst

DESCRIPTION

Your skin loses up to a quart of water every day, leaving you with a dry, flaky, and dull complexion that shows evidence of the aging process. Fortunately, reviving your skin is quick and easy with Resurrection Bio-Mist™.

A spray of Resurrection Bio-Mist™ provides maximum moisture for maximum beauty. With the moisture-preserving secrets of the resurrection plant captured in each bottle, Resurrection Bio-Mist™ can change the appearance of aging, drying skin.

You'll feel a difference the minute the fine mist touches your face, delivering essential moisture to parched skin and a light scent of ylang ylang pure essential oil. The pleasant aroma disappears after a few minutes, but the benefits of Resurrection Bio-Mist™ last much longer. Your cells drink deep and stay hydrated longer, resulting in healthy, supple skin that looks years younger. Resurrection Bio-Mist™ enhances the tone of your skin and visibly reduces the appearance of wrinkles.

This unique skincare spray contains a complex extract from *Haberlea rhodopensis*, a plant native to the Balkans and known as the resurrection plant because of its amazing hydrating abilities. This potent extract hydrates your skin at a deeper level, replacing lost moisture and creating a beneficial layer of water that protects your skin's vitality and helps fight against the appearance of aging. With Resurrection Bio-Mist™, your skin will feel softer and appear clearer and more toned.

BENEFITS

- Increases the skin's natural beauty through a triple-action approach: moisturizing, toning, and reducing the appearance of aging
- Saturates the skin with essential moisture
- Inspires and sustains youthful vigor in the skin's surface, while balancing and protecting moisture levels
- Visibly reduces wrinkles and significantly enhances skin suppleness

PERSONAL CARE

RESURRECTION BIO-MIST™

(continued)

KEY INGREDIENTS

- *Haberlea rhodopensis* leaf extract (*resurrection plant*)—Resurrection Bio-Mist's main active ingredient, this extract delivers remarkable skin hydrating and toning properties
- *Beta vulgaris* (*beet*) root extract
- *Hydrolyzed glycosaminoglycan*—Helps the skin lock in moisture
- *Hydrolyzed milk protein*—Provides moisturizing benefits
- *Yeast extract*

DIRECTIONS: Mist a moderate amount on face, hands and other desired areas. Gently rub into skin. Then after applying Wrinkle Garde™, Retention Plus™, Skin Enhancer™, Night Science™, Barrier Cream™, Tender Care™, Circles and Lines™, or Firm Up™, mist another layer of Resurrection Bio-Mist™ onto skin. Massage in.

INGREDIENTS: Purified water, butylene glycol, beta vulgaris (beet) root extract, isopentyl diol, haberlea rhodopensis leaf extract, phenoxyethanol, caprylyl glycol, hydrolyzed glycosaminoglycans, yeast extract, sodium PCA, hamamelis virginiana (witch hazel) extract, chlorphenesin, polysorbate 20, rubus suavissimus (raspberry) leaf extract, allantoin, citrus tangerina (tangerine) extract, disodium EDTA, hydrolyzed milk protein, cananga odorata flower extract, benzoic acid, lvelvet extract
