

HEALTH & WELLNESS

REVENOL®

*A powerful antioxidant formula**

DESCRIPTION

Revenol® supports your antioxidant capacity, which aids against free radicals and promotes cellular health.*

More than likely, you've heard of the nasty little molecules called free radicals. Perhaps you even know that free radicals damage the cells in your body.

Free radicals come from everywhere, including natural sunlight, chlorination, airborne emissions, and chemical sources. In fact, our own bodies create free radicals when we burn fat for energy. Basically, they are atoms with an unpaired electron, and they wreak havoc as they bounce around, stealing electrons from other atoms and changing the fundamental cellular structure of your body.

That's why you need lots of antioxidants in your diet, because they neutralize free radicals and support cellular health. Revenol® supplements your diet with an antioxidant-rich formula, providing both fat-soluble and water-soluble antioxidants.*

BENEFITS

- Supports antioxidant capacity*
- Supports the immune system*
- Supports memory enhancement*
- Promotes gastrointestinal health*
- Supports healthy skin*
- Supports healthy circulation*
- Promotes joint health*
- Supports against minor inflammation*

REVENOL®

(continued)

KEY INGREDIENTS

- **Vitamin E**— An integral component of cell membranes, vitamin E supports the cellular membrane against a specific type of radical and promotes cellular health.*¹
- **Vitamin C**—Contains more than 100 percent of the RDA for vitamin C, in the form of Ester-C®, a patented compound that is most efficient in delivering the vitamin to your body. Vitamin C supports the immune system² and cellular health.*³
- **Vitamin A (beta carotene)**—A precursor to vitamin A, beta carotene is abundant in many vegetables. Vitamin A provides protection against a variety of free radicals.*
- **Curcumin**—Supports circulatory health, promotes joint health, and supports against minor inflammation.*
- **White and maritime pine bark extracts**—Support the circulatory system.*
- **Grape seed extract**—Powerful antioxidant that protects against multiple types of free radicals.*
